

Progress of the Young Archers Project

14 October 2022

YoungArchers

We are pleased to announce that the Young Archers project has designed and defined an educational toolkit for primary school teachers and their students (9-12yo).

The aim of the educational toolkit is to promote the protection of heritage buildings in partner cities (Paris, Nicosia, Athens, and Barcelona), by developing educational materials and tools with diversity, inclusion, and accessibility in mind.

The 'Young Archers educational toolkit' is structured in the following 5 modules:

- **Module 1: Built heritage in schools**
- **Module 2: Heritage buildings and their stories**
- **Module 3: Accessible digital storytelling**
- **Module 4: The Young Archers Building Recording Form (for teachers and for learners)**
- **Module 5: Lesson plans**

To learn more about the educational toolkit, please visit the [project's website](#).
